NO MORE LOST SETTINGS!

Davie, FL (January 21st, 2016) – **LOKNOB** introduces a new product to their arsenal of problem solving accessories. Slightly different than our signature LOKNOB, but just as necessary, our latest product is the perfect solution for touring and gigging musicians who don't need to change their settings on the fly.

Keep your signature sound under wraps with our new Fuggedaboutit Tour Cap. Remove your existing knob and nut, set your tone and screw on LOKNOB's Fuggedaboutit Tour Cap...It's just that simple.

Bang it, drop it, kick it, knock it...Your settings stay put, so you can just Fuggedaboutit until you reset and reuse for your next world tour!

ROCK THE LOK!
